

Global Indicators framework Timeline

High-level Group for Partnership, Coordination & Capacity Building

Global indicators vs National indicators

- Each country will develop their own indicators
- Most developing countries had been keen on national indicators being developed first.
- National should be basis for global.
- If global first expectation by some is that these will offer specific metrics to guide national
- Some G77 members talking about not rushing adoption of Global indicators.
- Europeans want to conclude the global indicators.
