

TOGETHER 2030 *From Policy to Action*

The implementation of the ambitious commitments established at the [United Nations 2030 Agenda for Sustainable Development](#) and at the [Sustainable Development Goals](#) (SDGs) will require not only a strong leadership from governments (at national, regional, sub-national and global levels) but also the engagement of much broader constituencies and the set-up of more **creative coalitions and joined up advocacy**.

The Initiative

Established in December 2015, **Together 2030** is a global, action-oriented initiative aiming to generate and share knowledge on the implementation and accountability of the 2030 Agenda and the SDGs, and **project and amplify the voices** of different civil society and stakeholders around the world on the challenges and opportunities of implementing this Agenda.

It is a self-organized civil society Initiative, open to civil society, non-governmental, non-profit stakeholders around the world.

Our Unifying Vision: The commitments of the 2030 Agenda are made a reality, with civil society contributing in a meaningful way.

- **Strengthening Capacities:** Together 2030 aims at contributing to overcoming the huge disparities within the capacities of civil society organizations all over the world, and to support civil society to play a full and meaningful role in the implementation and follow up of the 2030 Agenda at all levels.
- **Action-Oriented:** Together 2030 focus on ensuring that civil society organizations and stakeholders are able to share knowledge and experiences of implementation and accountability; work together on global, regional and national advocacy and track whether commitments made on Agenda 2030 are effectively turned into action.

Membership

As of August 2017, **537** organizations have joined Together 2030 from around **97** countries. More than 70% of those are based in developing countries and around 30% in developed countries or are global organizations. See the full list of organizations [HERE](#) and [join us HERE!](#)

Work and achievements

- Production of [analysis and reports](#) on the implementation and accountability of the 2030 Agenda.
- Knowledge sharing and capacity building via [webinars](#) and other social media tools.
- Amplifying collective civil society voices via common [position papers](#) and other channels like the Together 2030 [blog](#).
- Dissemination of information and advocacy via social media.
