WHY ACT?

Every year, in every country and every community, violence robs children of happiness, dignity, a future.

More than one billion children, in fact. No matter what form it takes, violence denies children the life we believe God desires for all of them.

We can change this.

A world without violence against children is possible. The solutions are within reach. What it will take to get there is all of us playing our part.

“Do not remain silent. Report and raise your voice against all forms of abuse and harassment.
